RESOLVED:

Whereas: As identified in the 2024 Utility Master Plan, one of the key recommendations is to initiate a comprehensive wastewater strategy study to assess the Town's existing treatment systems,

And Whereas: These systems are anticipated to become a limiting factor in supporting future growth and development.

And Whereas: The proposed study will establish a clear roadmap for necessary upgrades to the Cornwall Treatment Facility, ensuring continued resilience, operational efficiency, and compliance with evolving environmental regulations.

And Whereas: The Municipal Strategic Component of the Canada Community Building Fund has funding available for such projects,

Therefore, be it Resolved: That the Town of Cornwall apply to the Municipal Strategic Component of the Canada Community Building Fund for a Utility Wastewater Strategy in the amount of $43,725.00 which represents fifty percent of the estimated total eligible costs of the project.
